## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 11-18 are rejected under 35 U.S.C. 102(b) as being anticipated by REIL ET AL (US 4034537).

REIL ET AL discloses a method and apparatus for packaging in which sealing jaws (61) (see column 7:25-45 and Fig. 7) perform sealing of the package, which is transferred and rotated at least 180 degrees before it is transferred to finish its sealing (see also Fig. 1)

Note that the method claim 15 recites a method that “is produced by a packaging machine according to claim 14”. However, it has been held that to be entitled to weight in method claims, the recited structure limitations therein must affect the method in a manipulative sense, and not to amount to the mere claiming of a use of a particular structure.
